### **BACKGROUND:**

As part of the Clay Community Trail and the Utah Junction Clay Street Outfall projects, it is necessary to have Public Service Company of Colorado (PSCO) make a slight realignment of its electrical transmission line. Part of this realignment is on County owned property located at east I-76 and North of the Union Pacific Railroad Moffat line and will be used for the Utah Junction Clay Street Outfall Project. PSCO requires an easement over a portion of the County owned property to protect its facilities. The easement will not impact the County's use of the property for the drainage project. Recommend the Electric Transmission Line Easement be approved and granted by resolution.
