<b>RECOMMENDED ACTION:</b> That the Board of County Commissioners Approves a bid award to Asphalt Specialties Co., Inc., to provide structural fill material for the 2017 Gravel Road Rehabilitation Program.

### **BACKGROUND:**

The Transportation Department Operations Division has implemented an accelerated gravel road rehabilitation program. This program includes the mixing and blending of various gravel materials to produce surface gravel that will be used to resurface existing gravel roads identified for the 2017 Program.

The primary focus is to have a stock pile of materials for mixing that will be hauled and used in the first and second quarters of 2017, weather permitting. Stock piling pre-mixed surface gravel materials reduces delays associated with blending and mixing functions as well as hauling activities. Screened structural fill material is a primary ingredient for all surface gravel mixtures and is the binding agent and chemical absorbent that extends the performance of the gravel mixture.

A formal Invitation for Bid was posted on Rocky Mountain E-Purchasing. Bids were opened on December 9, 2016. Two companies submitted bids.
